

This is to request that a new service known as LPFM not be given priority over current FM translator services. Stations such as K-LOVE listeners such as myself with Christian music with no commercials. I knowingly and financially support them monthly in order to hear their programming.

Without stations such as K-LOVE, I'm forced to turn my radio off and listen to CD's or have to endure cheap forms of advertising that provide me with no service whatsoever.

K-LOVE provides not only great music, but since it is listener-supported, they also provide encouragement to the communities they serve by reading scripture and offering prayers on behalf of listeners and the needs of our nation.

I am certain that my family can listen to nothing but wholesome values when they have K-LOVE tuned in.

Thank you for your consideration of my request as I know I speak for many.
